December 22, 2021 1:00 PM EST

LIMERICK, Ireland, December 22, 2021 /CNW/ – kneat.com, inc. (TSX: KSI) (“Kneat” or “the Company”) a leader in digitizing and automating validation and quality processes, is pleased to announce that another industry-leading corporation has selected Kneat as its enterprise validation platform.

This European-headquartered global biopharmaceutical company employs over 80,000 people, operates in more than 70 countries, and is currently using Kneat at 11 of its more than 50 manufacturing sites. Within these 11 sites, this corporation has scaled the use of Kneat’s software to multiple validation processes across core business units, including Specialty Care, Vaccines, and General Medicines.

With the signing of this three-year Master Services Agreement, Kneat has been formally appointed as the customer’s corporate enterprise validation solution, allowing it to expand its use of Kneat efficiently and at speed across the organization.

“We are very pleased that this global leader, one of the world’s most respected healthcare brands, has further put its trust in Kneat,” said Eddie Ryan, Chief Executive Officer of Kneat. “Their expansion provides additional evidence of Kneat’s product leadership in the category.”

Kneat continues to grow its diverse customer base, ranging from small biotechnology companies to top tier pharmaceutical companies. Among its customers, Kneat now has Master Services Agreements with 7 of the world’s top 10 life sciences companies. The trend of large, global leaders utilizing Kneat across their organization continues.

### About Kneat

Kneat, a Canadian company with operational headquarters in Limerick, Ireland, develops and markets the next generation Kneat Gx software platform. Multiple business work processes can be configured on the platform from equipment to computer system validation, through to quality document management. Kneat’s software allows users to author, review, approve, execute testing online, manage any exceptions and post approve final deliverables in a controlled FDA 21 CFR Part 11/ Eudralex Annex 11 compliant platform.
