

Global Pharmaceutical Packaging Manufacturer Selects Kneat

February 19, 2026 10:03 PM EST

LIMERICK, Ireland, Feb. 19, 2026 (GLOBE NEWSWIRE) -- kneat.com, inc. (TSX: KSI) (OTCQX: KSIOF), the global leader in digital validation and quality process automation, today announced it has signed a Master Services Agreement with a U.S.-headquartered global pharmaceutical packaging and drug-delivery manufacturer.

This new customer operates more than 45 manufacturing facilities worldwide, including over a dozen GMP-regulated sites, and employs over 13,000 people across the United States, Europe, Asia, and South America.

Under the agreement, the customer will initially deploy Kneat Gx for Commissioning, Qualification, and Validation (CQV). Implementation will begin at its lead site, followed by subsequent expansion to all other GMP sites.

A defining factor in this win is the Kneat platform's robust data integrity capability, which ensures every compliance action and documented outcome is fully attributable, traceable, and audit-ready, aligning with regulatory expectations.

"Regulated manufacturers increasingly rely on Kneat because of its trusted system of record for validation, built to support the highest standards of data integrity and compliance. We're excited to partner with this global leader as they continue to strengthen their quality and manufacturing excellence."

- Eddie Ryan, CEO, Kneat

As life sciences companies modernize their quality systems, structured and verifiable data is a foundational requirement. Kneat's architecture is purpose-built for this, supporting speed and efficiency while maintaining the strict data integrity and compliance standards required in regulated environments. This strong foundation ensures Kneat remains a stable and indispensable component of customers' digital operations, even as technology landscapes evolve.

Kneat continues to see broad adoption and expansion across leading pharmaceutical, biotechnology, medical device, and supply-chain manufacturing organizations. This second strategic win of 2026 reinforces Kneat's role as the recognized standard for digital validation and underscores the long-term relevance and resilience of its data integrity platform.

About Kneat

Kneat Solutions provides leading companies in highly regulated industries with unparalleled efficiency in validation and compliance through its digital validation platform Kneat Gx. As an industry leader in customer satisfaction, Kneat boasts an excellent record for implementation, powered by our user-friendly design, expert support, and on-demand training academy. Kneat Gx is an industry-leading digital validation platform that enables highly regulated companies to manage any validation discipline from end-to-end. Kneat Gx is fully ISO 9001 and ISO 27001 certified, fully validated, and 21 CFR Part 11/Annex 11 compliant. Multiple independent customer studies have shown that Kneat Gx reduces man-hours associated with validation documentation by up to 50%, accelerates review and approval cycles by up to 50%, and consistently supports higher standards of regulatory compliance.
